### Today We Learned About:

Long time ago, people were given the law by God to understand that He is holy and that we, as humans, are sinners. Although the law could not save us, it did point to something greater. Back then, people made sacrifices for their sins, but were still guilty. That's where Jesus comes in. He was God's plan and the perfect sacrifice for our sins. When we put our trust in Jesus, He takes away our sins. We can support each other in doing what's right and encourage one another until the day Jesus comes back again.
